

PTU Elite

PTU Elite is a suite of trusted programs built to give pharmacies affordable, lifelong training solutions for pharmacy technicians. Pharmacies of all sizes can use PTU Elite to attract and retain experienced pharmacy technicians, especially those who are interested in career development, higher levels of competency, growth opportunities, and advancement.

Available for purchase as standalone offerings, PTU Elite offerings focus on specific topic areas and are the perfect complement to Pharmacy Technicians University.

Available PTU Elite Programs

Immunizations 	
<ul style="list-style-type: none"> * PTU Elite: Immunizations is an ACPE-accredited series of online courses, simulations, and skill assessments, covering the full range of competency. Pharmacy technicians will master skills needed to successfully administer vaccines — from preparing patients to completing administrative protocols. * Training is succinct and up-to-date with the latest standards. Pharmacy technicians gain actionable knowledge that imparts skill and confidence. Built-in assessment tools help certified pharmacist immunizers verify each student's skill. * The program includes six hours of self-paced, online study and four hours of supervised skill assessment by a certified pharmacist immunizer. 	<p>BENEFITS:</p> <ul style="list-style-type: none"> → Convenient: Avoid scheduling problems with self-guided, online content available 24/7 → Cost Effective: Limit training costs with flexible pricing, tailored to any organization's size → 360° Training: Go beyond teaching safe vaccination practices. Provide robust training that covers planning, billing, follow-up and other steps that are necessary to the business
Math Mastery 	
<ul style="list-style-type: none"> * PTU Elite: Math Mastery delivers efficient, online training to support mastery of essential and commonly-used calculations, increasing technicians' confidence and reducing anxiety they may have around math. * Designed exclusively for technicians in community and institutional pharmacies, the program leverages engaging and dynamic content to build and strengthen math competencies via an interactive eLearning solution. * Interactive learning modules teach practical problem-solving approaches for common calculations such as: measurement conversions, quantities to dispense, dosages, days' supply, dilutions, and more. 	<p>BENEFITS:</p> <ul style="list-style-type: none"> → Go Beyond the Workbook: Lessons and quizzes are presented as interactive, realistic workflow scenarios, allowing for easy translation of skills into practical application → Humanize Errors and Reduce Audits: Incorrect answers are followed by examples of potential negative impacts of miscalculations → Support Career Development: Building technicians' confidence reduces turnover and improves job satisfaction
Soft Skills 	
<ul style="list-style-type: none"> * This 8-didactic hour online solution, designed exclusively for the pharmacy technician role, helps technicians build and develop essential competencies that lead to safer, patient-centered care and improved staff retention. * With a focus on communication, empathy, leadership, conflict management, and teamwork, this online program combines practice-ready clinical resources with multimedia modules to foster harmonious, well-rounded pharmacy teams. * Interactive learning modules in each course make implementation of new skills easy, and include highly-relevant, concise, technician-specific information. 	<p>BENEFITS:</p> <ul style="list-style-type: none"> → Enhance Patient Care: Technicians learn actionable communication tactics to defuse tense situations, acknowledge sensitive topics, and put patients at ease → Improve Teamwork: Technicians gain skills in collaboration, managing up, leadership, and more → Support Career Development: Investing in well-rounded technicians leads to lower turnover and higher job satisfaction

CSPT™ Training

- * Prepare PTCB-certified technicians to pass the CSPT™ (Compounded Sterile Preparation Technician) exam with this affordable and efficient online program, which includes didactic and simulation courses on the essential compounding knowledge standards.
- * Now, currently-practicing, nationally-certified pharmacy technicians can participate in PTU Elite CSPT™ Training, saving you money and saving your technicians time. Plus, you'll be better prepared for Board of Pharmacy audits and reviews, and to demonstrate your commitment to quality, medication safety, and a higher level of patient care.
- * The curriculum includes 27 didactic hours and 32 simulation hours.

BENEFITS:

- **Shorter Prep Time:** Trainees who complete this PTCB-recognized program can sit for the CSPT™ exam with just 1 year of experience in compounded sterile preparation
- **High-Quality and Comprehensive:** Curriculum aligns with PTCB's standards for CSPT™ certification; courses cover all relevant topics, including compliance for USP <797> and USP <800>
- **Top Pass Rates:** PTU grads boast a 77% pass rate on the PTCE® exam — higher than the national average

Hazardous Drugs

- * In partnership with CriticalPoint, this exclusive program ensures your technicians practice safely by providing efficient, in-depth training and assessment tools for handling hazardous drugs to meet USP 800 requirements.
- * As a PTCB-Recognized Hazardous Drug Management Education/Training Program, your technicians may sit for the PTCB Hazardous Drug Management Exam upon completion of this program.
- * Provides 4 comprehensive training courses that can be completed in 5 hours.

BENEFITS:

- **State-of-the-Art:** Curriculum, training, and resources brought to you by industry-leading subject matter experts at CriticalPoint.
- **Prioritize Safety:** All aspects of the training content are focused on enhancing safety measures, reducing harm, and mitigating risk.
- **Engaging and Fun:** The self-paced, interactive format makes it easy and enjoyable to learn.

Point-of-Care Testing

- * Point-of-Care Testing ensures your technicians are safely able to perform CLIA-waived testing by providing efficient, in-depth training and assessment tools.
- * Technicians will learn how to administer CLIA-waived tests that screen, detect, and/or monitor conditions such as diabetes, high cholesterol, COVID-19, flu, hepatitis C, human immunodeficiency virus (HIV), and strep throat.
- * This 10-hour online training gives technicians total mastery of the necessary skills to administer tests safely, identify candidates for testing, and complete vital administrative tasks.

BENEFITS:

- **Leverage the full capacity of your pharmacy staff:** Successful pharmacies augment access to healthcare in their communities by training all staff members, including technicians, for optimal performance and results.
- **Increase revenue streams:** As customers receive tests in the pharmacy, they may shop while waiting for results, leading to increased sales.
- **Elevate customer satisfaction and loyalty:** Trained technicians can discuss with patients tests that can be done while they're in your pharmacy.

Controlled Substances & Diversion

- * Prepares pharmacy technicians to manage controlled substances, covering everything from best practices for filling prescriptions to recordkeeping.
- * Trainings teach how to detect and respond to the diversion of medications, DEA requirements, and strategies that prevent controlled substance diversion.
- * A four-hour, online training program that adds skills to help prepare technicians attain a Pharmacy Technician Certification Board Controlled Substances Diversion Prevention Certificate.

BENEFITS:

- **Strengthen trust:** Educated technicians can help prevent investigations and other legal actions that compromise the pharmacy's reputation.
- **Reduce inventory loss:** Technicians are empowered to "say something if they see something" and prevent theft or diversion.
- **Retain employees:** Encourages job satisfaction and professional growth with educational opportunities.
